

Everyone on your payroll has money questions *they've never asked anyone.*

One trusted financial coach for your whole team — by phone, email, or Zoom, all year. For everyday questions and the decisions that actually matter. Your company pays one flat annual fee; your people get a person, not a portal.

HOW IT WORKS

- 01 See your price — no call required.** Pricing is published by headcount, not negotiated. Your number is in the table to the right.
- 02 We set a launch date.** No data files, no integrations. Your coach introduces himself to the team and reaches out first — we don't wait for logins.
- 03 Your people just call.** 401(k) match, a medical bill, a parent they help, a move — anything counts. A spouse or partner can always sit in.

WHY IT'S DIFFERENT

- ◆ **Nothing to sell.** No commissions, no products, no fine-print agenda. The answer is just the answer.
- ◆ **Private, actually.** Sessions are never recorded, and nothing said in one is ever shared with the employer.
- ◆ **We come to them.** Most financial wellness waits for a login — which is why most of it sits unused.
- ◆ **Group clinics & quarterly reporting** included — usage and themes, never individual conversations.

Try before you talk to us — most of what we built is free.

At **12thandgood.com**: an AI Money Coach anyone can ask anything · a plain-English 401(k) answer library · a free 401(k) plan benchmark for employers · ROI, debt, budget & emergency-fund calculators. No signup, no pitch.
